*An Account of the Present State of the  
Charity disposed of, to the Relief of  
the Widows and Children of Clergy-  
men.*

**H**IS late Majesty King *Charles* the Second did, in the Thirtieth Year of his Reign, ( *July 1. 1678* ) erect a Corporation for the Relief of poor Widows and Children of Clergymen; which Corporation hath from time to time been endowed by the Charity of well-disposed Persons, with a Revenue now amounting to about two Thousand Pounds *per Annum*. This Revenue, great as it is, and vastly redounding to the Honour of the Pious Benefactors, \* one of which alone some time ago bequeathed to the Corporation the Sum of 18,000 *l.* is nevertheless far insufficient to answer the pressing Wants, for the Relief of which this Corporation was established. For there are commonly near six Hundred Widows of Clergymen, who have been left so entirely destitute of all Subsistence, as to apply yearly for Relief to this Corporation; and it has been observed, that the Number of poor Persons so applying, has greatly increased. The Num-

ber of Clergymen in *England*, may be computed to be about twelve Thousand, their Widows applying for Charity about six Hundred, which is about One in Twenty. But when it is considered that there are five Thousand Livings (including Donatives and perpetual Curacies) not exceeding fifty Pounds a Year, and of these two Thousand not exceeding ten Pounds a Year; it will not appear so strange, that of Clergymens Widows, one in twenty should come to want; as that from among the other Clergy (chiefly) in forty Years time, a subsistence for them should be raised of two Thousand Pounds a Year. But besides, these Six Hundred poor Widows have generally large Families of Children depending on them, and the Number of such miserable Orphans, from the Certificates given into the Corporation, have been computed to amount to at least two Thousand. From whence it appears, that in order to allow each of these six Hundred poor Widows with their Family, for their whole Subsistence, but ten Pounds a Year, it would require an Annual Revenue of at least six Thousand Pounds: That of two Thousand Pounds, wherewith this Corporation is at present endowed, though applied with the greatest Care and Fidelity, not being hitherto capable of affording to each, more than three Pounds yearly; a Sum much smaller than many of the meanest Parish-Poor receive, especially if they have Families to take Care of.

A LIST

*A LIST of the Royal Benefactors to  
this Charity, since the Charter grant-  
ed by King Charles II.*

**H**ER late Majesty Queen *Anne* did, by  
Act of Parliament in the Year 1703,  
grant the Revenue of First Fruits and Tenths  
(amounting to about 15,000 *l. per Annum*) in  
Augmentation of the Maintenance of the Poor  
Clergy.

His late Majesty King *George I.* in regard  
to the humble Petition of this Corporation,  
was pleased to grant his Royal Licence, dated  
*December 16. (1714)* enabling them to make  
farther Purchases and Acquisitions, not ex-  
ceeding five Thousand Pounds *per Annum*. Her  
present Majesty Queen *Caroline* has given  
500 *l.* to this Corporation.

Besides these Donations, the several Bishops  
and Clergymen underwritten, gave each of  
them One Thousand Pounds or upwards.
